Mapleton Police Department News

Date: March 31, 2024

Topic: Speed Feedback Display Trailer

Agency Point of Contact: Chief Benjamin Honsey

Details:

On March 5, 2024, the Mapleton City Council approved the Mapleton Police Department to purchase a Speed Feedback Display Trailer. This trailer will be used primarily for assisting the police department at keeping our streets safe for residents, motorists and pedestrians by reminding motorists to obey the speed limit.

The Speed Feedback Display Trailer arrived on March 26, 2024. Residents may have seen the trailer or will likely be seeing the trailer used on some residential streets as we test and learn how to utilize the trailer to its full potential.

In the coming weeks and months, the police department will be utilizing the Speed Feedback Display Trailer in areas of concern around our community such as near the school and city parks.
